

**The Cities of Lewiston and Auburn participated in Public Works Week, Greet and Meet at the Auburn Mall in Auburn Maine on May 18th.**

The parking lot near the main entrance hosted several pieces of equipment and information pamphlets on Zero-Sort Recycling which will begin in the cities on July 1, 2011. Information pamphlets on the City of Lewiston's Storm Water Fee were also available. Children enjoyed climbing into and getting behind the wheel of a grader and a front end loader with plow. A Vactor (catch basin cleaner) was on hand and children had the controls for moving the boom around the truck and setting it in the center of a "Bulls Eye" catch basin! A demonstration on culvert cleaning was also given. Thanks to the Auburn Mall and all who participated in this year's Public Works Week Event!

**Pictures – The weather didn't bother buddies, Timmy Brienza (8 years old) and Jason Davis (8 years old). Both enjoyed all the equipment and opportunities the event provided.**
